SIMEON IDE'S "CONQUEST OF CALIFORNIA" AND BIOGRAPHY OF WILLIAM B. IDE

59. **CALIFORNIA.** Ide (Simeon). The Conquest of California by the Bear Flag Party Organized and Led by William B. Ide. Scraps of California History never before published. Ide: With a Minute and Interesting Account of one of the Largest Emigration Companies (3000 miles overland) from the East to the Pacific Coast; and what is Claimed as the most Authentic and Reliable Account of "The Virtual Conquest of California, in June, 1846, by the Bear Flag Party," as given by its Leader, the Late Hon. William Brown Ide. 16mo, 239+1 pp., original printed cloth and leather back, as issued.

"Published for the Subscribers," n. p., n. d. [Claremont, 1880]

A volume extremely rare, of utmost importance, and possessing an interest exceeded by few other books dealing with American history. This is William Ide's narrative of the events so long in controversy, and contains his elaborate letter to Senator Wambough, written shortly after the matters involved. That but a few copies are known is explained by Simeon Ide on p. 239, where he says: "This little book is intended . . . to be placed in the hands of so many of his other relatives and their friends as may obtain copies of it, but a small edition of (sic) will be printed." The dramatic interest in the volume itself lies in the fact that Simeon Ide began its creation when 83 years old, and worked on it for two years. (See p. 238.) He wrote or compiled the text; set the type; read the proof sheets; and made the type ready for the press. He did everything but the printing and binding. As a result of such work this volume came into existence.

200. HARRISON (GENERAL W. H.). A large, oblong piece, 12 by 24½ inches in size, of the pictorial chintz cloth woven to be worn by the Western women during the Campaign of 1840. *The pictorial pattern consists of a pioneer clearing, showing a log cabin, a stockade, and a barrel of "Hard Cider." Beneath the cabin is a portrait of Old Tippecanoe, and the legend, "Harrison and Reform."* On this example the design is twice repeated, with sprays of flowers between. Baer was a typical backwoods Harrison enthusiast who went campaigning for old Tippecanoe, and his illiterate, powerful speeches created a great sensation. Amos Kendall declared he was a horse thief. A vindictive tract of the 1840 campaign. Citing the Indiana Territory Act of 1807, which was approved by Harrison, who was then Governor with despotic powers, and which did as a fact provide for selling men into servitude, and for whipping them with 39 lashes. Very rare.

A COMPLETE FILE OF THE STAR JOURNAL

221. HISTORY OF THE WEST. Saturday Star Journal. Folio, 28 vols., folio, half morocco.

New York: Beadle and Company, 1870-97

This is a duplicate of the remarkable file sold in Part I of Doctor O'Brien's library; which is now in a great permanent Collection in California. The copy here offered, and the one formerly sold, constituted the private office files of the publishers, and were traced, discovered and acquired by the present owner after the publishing house had ceased to exist. No other files of this extraordinarily important publication (either complete or incomplete) are known to be in any other public or private library. It is not a newspaper in any sense of the word, but is a weekly magazine in folio form devoted to narratives, biographies, personal experiences, adventures, stories, and other recitals of pioneer work, and kindred material relating to American history, customs, events, manners and conditions, particularly of the Far West. Nothing else like it, or containing a fraction of its vast amount of like contents, was ever issued in America. The file was built up in duplicate and bound, year by year, by the publishing house, as part of its own editorial records. Together the 28 volumes contain 1419 separate issues of 8 pages or more each, or about 11,325 pages in all. Each page has five columns of well-printed reading matter or illustrations, (no advertisements were accepted), or 56,760 columns, and each column of text contains about 1800 words. The entire file, therefore, represents some 100,000,000 words of text. In now offering this copy we can do no better, for further description, than to quote from our own bibliographical note descriptive of the other file already mentioned, which in part read as follows:

“There is not a Western State whose pioneer history and records, as herein contained, would not fill an important volume, and certain of them (California and Texas, for instance) are dealt with to an extent that would fill numerous volumes. Other individual narratives or features of great importance and value are:

“‘Plains and Mountain Men,’ by Frank Triplet. A series of 15 continued installments, aggregating about 60,000 words, and constituting one of the most important narratives of early Western life, conditions and experiences ever written; existing, we believe, in no other form. The story, in its entirety, discusses the lives and adventures of Isaac Graham, Old Bill Williams, Peg Leg Smith, the Sublettes, Jedediah Smith, Robert McLellan, Bill Gordon, Eddie Bridger, Bill Bent, Rose the Renegade, Ramsay Crooks and many others.

“‘Border Reminiscences’ and ‘Tales of the Border.’ by Bruin Adams. The material relating to Grizzly Adams, and relating to or written by Bruin Adams, would fill a big book.

“‘Western Desperados,’ by Triplet. A collection of continued papers, constituting probably the best serious history of this phase of Western pioneer life in existence, and not elsewhere—to our knowledge—found.

This series, of about 50,000 words, discusses Cole and John Younger, Jesse and Frank James, Jim Cummins, Jim Reed, Clell and Ed. Miller, Bill Chadwell, Arthur McCoy, Tom Little, Ol Shepherd, Thomp and Bud McDaniels, Wood and Clarence Hite, Bill Ryan, Dick Liddle, Billy Blackmoe, Murieta, Dave Poole, Bill Chiles, Charlie Pitts and dozens of like figures and their deeds.

"'Heroes and Outlaws of Texas,' by Major Sam S. Hall. Also an important book in installments. Deals with Jack Hayes, Nelson Lee and his adventures, Rublo, Jim Brennan, the Knights of the Golden Circle, Cortina, and other famous figures, and events in Texas history.

"'Pen Pictures of the West,' by Ira Hegmun. This will be considered by some as the most important feature of all. Assuredly it is one of the most valuable narratives of the men, life and conditions of the early West in existence. It is a book of about 60,000 words.

"'Texas Life Sketches.' A series by Major Hall.

"'Trap, Trigger and Tomahawk,' by Henry M. Avery. Hunting, trapping and Indian fighting. About 60,000 or 70,000 words.

"'Adventures in the North.' Another series by Avery.

"'Stories of the Range.' A series by John Whitson.

"'Around the Camp Fire.' A very long book of personal reminiscence and adventure by Captain Ringwood and Bruin Adams.

"'Prairie Pards, or Tales of Border Trails.' A series.

"Among the hundreds of other features (some continued and some shorter) are: 'My horses and their Exploits,' by Buffalo Bill; 'Kit Carson's Sagacity,' by Jos. Badger; 'Sam Houston's Expedition of 1858,' by Major Hall; 'Adventures in the Far West,' by George Browne; 'Border Reminiscences,' by Ringwood; 'My Ride for Life,' by Buffalo Bill (the material by or about Cody would fill several books); 'Tales of the Foothills,' by Clark; 'Davy Crockett's Shooting Match,' by Bruin Adams; 'Tales of an Old Frontiersman,' by Bill Pepper; 'Letters from Colorado,' by E. F. Beadle; 'Jack Hayes' Famous Charge,' by George Browne; 'The Old Sante Fe Trail,' 'The Story of the Bison,' by Dr. Carver; 'Geronimo'; 'John Bender of Kansas,' by Lisenbee; 'Echoes from the Trail,' by John Whitson; 'How the Indians Fooled Kit Carson,' by Henry Inman.

"There are also innumerable features dealing with the grizzly, elk, and other wild animals; big game hunting; firearms and shooting; fishing; stage coach travel; Mississippi river life and travel; famous characters of the West; the Indians; bison hunting; ranch life; cowboy life; early cattle industry; the Montana Stranglers; Indian wars; the Vigilantes; feature articles dealing with conditions in the several Western States and Territories from 1830 to date of publication (such as 'The Bad Lands of Wyoming,' by Greely; and 'The Story of Oklahoma's Evolution,' by George Foster).

"Other pioneer figures whose biographies or adventures are extensively set forth include Johnny Appleseed, Ned Brady, Deaf Smith, Crockett, Wild Bill Hickok, Frank Powell and his brothers George and William, Buckskin Sam, Ben Thompson, Dr. Carver, Jack Crawford, Joe Rainbolt, California Joe, David Payne, Simon Kenton, Charlie Utter and Bowie.

"In addition the file contains serial stories descriptive of Western life, characters, customs and conditions, the scenes of which are laid in the various States and Territories. There are biographies of many famous Americans. There are sketches and stories by Ed. Mott, Lisenbee, Bellaw, Will Patten, Gidley, Tom Morgan, Pelham, and their contemporaries. There are other historical narratives and stories (in addition to those mentioned) by Frank Converse, T. C. Harbaugh, H. S. Keller, Frank Powell, Mayne Reid, Waldo Brown, Col. J. E. Donovan, Arthur Meserve, Lieut. R. A. Swift, Col. Delle Sara, J. C. Cowdrick, Captain Howard Holmes, Arthur Grissom, Joseph Badger, Captain Whittaker, Prentiss Ingraham, John Clermont, A. H. Modriker, Albert Thompson, and scores of other writers who knew the West of their day, who lived its life, and painstakingly collected its still earlier history from the lips of preceding pioneers."

This volume was discovered and obtained by Captain Skene, the explorer, then an Indian Agent near Hudson's Bay. It is accompanied by a letter written in 1871 and addressed to Skene by Allan Salt, the celebrated Missionary of Parry Island, from which it appears that Skene had sent him the book for translation. With Salt's letter in his translation and explanation of the pictures, as returned to Skene.

The volume itself is doubtless unique. The covers are of several thicknesses of birch bark, sewed together. The front cover contains a native inscription meaning "Indian Book," and is decorated by two clusters of flowers. Both the words and flowers are made of porcupine quills, stained in various colors by wilderness vegetable dyes, and inlaid. On the back cover is a similarly made large flower cluster in colors, with a bee hovering over it. The presentation inscription says that the book is a gift by the Chief to his son, Little Talking Bird (who, on the inside of the back cover, gives his age as 12 winters). The pages devoted to illustrations

are made of single sheets of birch bark, on which Sound of Thunder Ravens has drawn pictures of the wilderness animals of the region, with textual comments on their character and habits. In making his drawings the Indian used vegetable and mineral pigments, including browns, grays, blacks, blues, reds, whites and greens. Among the animals regarding which he thus instructs his son are the moose, lynx, wolverine, beaver, raccoon, bear, birds, rabbit, mink, porcupine and wolf. The final illustration depicts a feast that follows the successful hunt.

The book is wholly the product of the wilderness in its authorship, in its materials, and in its workmanship. No other volume of its character can be traced. Perhaps none other like it was ever created. At the request of the New York World, Doctor O'Brien permitted that paper, on August 7, 1921, to devote a page illustrated article to the volume.

THE FINEST KNOWN COPY OF JOHNSON AND WINTER'S NARRATIVE

329. JOHNSON (OVERTON) AND WINTER (WILLIAM H.). *Route Across the Rocky Mountains, with a Description of Oregon and California: Their Geographical Features, Their Resources, Soil, Climate, Productions, etc., etc.* By Overton Johnson and Wm. H. Winter, of the Emigration of 1843. 8vo, 152 pp., original cloth. Lafayette, Ind.: John B. Semans, Printer, 1846

There are nine known copies of this great rarity, of which the present cataloguer has personally examined seven. The other two have been described to him. This copy is the finest of all. It is in the original binding of hand-loom linsey-woolsey black cloth, which shows practically no wear; it contains all preliminary leaves both front and back; it is an autographic presentation copy from "The Author" (Johnson); the text is fresh, clean, crisp, and crackling to the touch.

In its historical importance the narrative can hardly be overestimated. It is the only contemporarily printed description of the Great Migration of 1843, of which both men were members. It shows (in Winter's description of California Conditions in 1845) that the Bear Flag movement was already afoot, that "our citizens will possess themselves of this beautiful and healthy country . . . throw off their present form of government, establish a Republic of their own." And, in addition, Johnson and Winter were present at, and describe, the Council between Whitman and Yellow Serpent, in which the killing of Whitman was formally debated. After the Council the authors told Whitman and the missionaries that it was wrong "to hazard their own lives" by remaining, and that prudence dictated "that they should abandon the mission, for a time at least." All of these things, presaging both the California Conquest and the catastrophe of November, 1847, that brought Oregon into the United States, were published in the little Indiana town, in this book, in 1846.

But one other copy has appeared at auction.

RAREST OF ALL THE MODERN ISSUES OF OVER- LAND NARRATIVES

330. JOHNSTON (WILLIAM G.). *Experiences of a Forty-Niner, by Wm. G. Johnston, a Member of the Wagon Train First to Enter California in the Memorable year 1849. Portrait, and 13 full-page historical illustrations.* Thick 8vo, 390 pp., cloth, gilt.

Pittsburgh: [Privately issued], MDCCCXCII

A practically unprocurable book, only one copy having appeared at auction. This splendid volume, as the author says in his preface, was

prepared "with no view of publication," and "it is known that the circulation will still be restricted to a small circle of readers composed of friends and acquaintances." It is believed that about 50 copies were printed. Johnston and his party left Pittsburgh on March 2, Independence on April 28th, and entered California on July 24th, 1849. The book is a direct transcription from Johnston's original journal kept along the route, and is one of the most elaborate, careful, and well-written narratives of the sort in existence.

368. **LEE (NELSON).** Three years among the Camanches, (*Portrait*), the Narrative of Nelson Lee, the Texas Ranger (and on secondary title the same, with a continuation reading) Containing a Detailed Account of His Captivity among the Indians, his Singular Escape through the Instrumentality of his Watch, and Fully Illustrating Indian Life as it is on the War Path and in the Camp. 12mo, both title-pages, and the tissue leaf in front of portrait, 224 pp., all blank leaves front and back, original printed cloth.

Albany: Baker Taylor, 1859

Extremely rare, especially with the portrait title, which appeared only in the earliest issue. Wagner (See No. 274) suggests that the portrait title may have been a wrapper, but the existence, in this copy, of a tissue leaf in front of the portrait, seems to weaken that theory. Lee served in the Black Hawk War and in the Texan Navy, and his adventures with Cameron, Hays, Bureson and McCulloch began about 1840.

THE FINEST KNOWN COPY OF LEONARD'S NARRATIVE

369. **LEONARD (ZENAS).** Narrative of the Adventures of Zenas Leonard, a Native of Clearfield County, Pa., who Spent Five Years in Trapping for Furs, Trading with the Indians, etc., etc., of the Rocky Mountains. Written by Himself. 8vo, 87 pp., original red stamped cloth.

Clearfield, Pa.: Printed and Published by D. W. Moore, 1839

The finest known copy of an excessive rarity. In the original binding; with all blank leaves, both front and back; title and text crisp and fresh, and crackling to the touch. Leonard's Narrative is the earliest authentic and detailed recital of its sort (also including his account of Walker's famous Expedition to California, of which he was a member) and will doubtless always remain the cornerstone in the literature of Western adventure. About five copies of the book are known, (see Cowan's bibliography), and all the other recorded copies are already in permanent collections. Wagner, No. 66.

LEWIS'S AND DOUGLAS'S "DER MISSISSIPPI"

370. **LEWIS (H.) AND DOUGLAS (GEORGE B.).** Das Illustirte Mississippithal . . . The Valley of the Mississippi from the Falls of St. Anthony to the Gulf of Mexico, a distance of about 2,300 miles. Illustrated with a Series of 80 Original Views painted

on the spot. By H. Lewis, a Landscape Painter of St. Louis, Mo. Together with a Historical and Geographical Description of the Country, and a Particular Dissertation upon the Indian Tribes Inhabiting the Upper Mississippi. (Title and text in German; legends on the plates in English and German.) *Engraved title-page, 1 folding and 77 full-page colored lithographic plates.* Imp. 8vo, 431 pp., half morocco and panelled back, gilt. Dusseldorf, 1850

Excessively rare (about 12 copies being known) and unapproached in importance by any other volume devoted to portraying the conditions with which it deals. Sabin mentions the book, quoting the title incorrectly, and giving the number of plates as 24. The first complete copy in America was found some 10 or 12 years ago, and was then acquired by the St. Louis Library. This copy is complete in every respect. No other known example contains more or other plates, the folding plate being counted as two, and the title being the 80th. The plates themselves are superbly done in colors, after Lewis's paintings, and are of surpassing interest and value. They portray the pioneer forts; the cities and towns of the Mississippi Valley; the steamboat and flatboat era; Indian dances, councils and encampments; and other phases of the period that are nowhere else to be duplicated. Each plate is a reproduction in colors of a painting which Lewis did from life or the actual scene depicted, during a journey of thousands of miles for the purpose, in company with Douglas.

THE NARRATIVE OF LUCY LOBDELL, THE CELEBRATED FEMALE HUNTER

The rare "map of Louisiana" (dated 1757) shows "the course of the Mississippi and the adjacent rivers, the nations of the natives, the French Establishment, and the Mines," from the Appalachian Mountains to the headwaters of the Columbia, and is one of the earliest and most interesting charts of the interior of the continent.

Privately issued by Applegate in an edition of 200 copies. He was a member of the Migration of 1843, and his narrative of the overland journey and the early years of the Oregon Territory is one of the important accounts of those times and events.

THE ORIGINAL ISSUE OF BEESON'S OREGON NARRATIVE

508. OREGON. Beeson (John). *A Plea for the Indians; with Facts and Features of the Late War in Oregon.* Small 8vo, 143 pp., original green printed wrappers.

New York: Published by John Beeson, 1857

The Original Issue. A narrative of his trip across the plains from Illinois to California and Oregon in 1853; of the "depraved" condition of the American Settlers in Oregon; of the outbreak of the Indian War; of the "political rottenness" of the Territory; and of affairs and adventures in California. Beeson's attitude, bluntness, and newspaper articles stirred up an intense hostility against him among the Oregon settlers, and he narrowly escaped violence, but secretly made his escape. Not in Wagner. Extremely rare.

Not in Wagner's Bibliography, and extremely rare. The book had no relation to the Mexican War (which is not mentioned) and was copy-

righted in 1845. The map shows the "Caravan Route to Santa Fe" and the "Oregon Route," and contains also, in double column, a table of distances on the "Emigrant Route from Missouri to Oregon." Of the text, 8 pages are devoted to California, 8 to Texas, and 10½ to Oregon. The remainder relates to Iowa, the Indian Territory, and Missouri. The only other known emigrant's guide book to Oregon and California which certainly antedates the one here described, is that by Hastings, which appeared in 1845. Shively's Guide appeared in 1846, and possibly is later than Mitchell's.

ORIGINAL MANUSCRIPTS OF SWAGERTY'S FOUNDATION SURVEYS AND MAPS OF THE "TERRITORY SOUTH OF OHIO" (NOW PART OF TENNESSEE) IN 1795

610. **TENNESSEE.** The original manuscript surveys and maps made by Abraham Swagerty, the Surveyor, in 1795, delimiting and describing six tracts aggregating 4,201,240 acres in the "Territory South of Ohio," and embracing almost exactly one-sixth of the present State of Tennessee. On six very large folio sheets (size of each about 30 inches high and 15 inches wide) made by pasting two folio sheets together for each document.

(Dated) Territory of the United States South of Ohio,
January 21st to January 29th, 1795

All six manuscripts have certain general features in common, and a detailed description of one, therefore, will outline the character of all.

The first survey has an endorsement on the back reading: "No. 1. 1,866,240 acres. Not to be Shewn." The body of the document consists of the following sections: At the top the heading, "Territory of United States South of Ohio." Then a map above a "Scale of Miles" and within ruled borders, outlining a region whose sides are 54 miles in length, through which runs "Richland Creek," "Sale Creek," "Sequatchey River," and "Old Indian Path," and whose area is "1,866,240 acres." Beside the map, in Swagerty's manuscript and signed by him as the surveyor, is his description of the tract in a surveyor's terms. Then comes his separate certification that "the land contained in the above plot" is vacant and unappropriated, and free from any "location." This is also signed by him as the surveyor. Following the above is a second description of the tract in ordinary terms, giving its location on the Sequatchey River, its position with relation to another of the regions surveyed, and a statement regarding its forest and water features. This is again signed by Swagerty as the surveyor, and dated "Territory South of Ohio, 23rd day of January, 1795." Last on the document comes a legal and official certification headed "Territory of the United States South of Ohio: Knox County," in which James Cozby and Abrm. Ghormley, "Magistrates of the County aforesaid," declare that Swagerty has signed the preceding certificates; that he is a sworn surveyor in the territory; and that "full faith and credit may be given to his acts as surveyor." This is "given under our hands and seals," dated January 29, 1795, and signed (with wafer seals) by Cozby and Ghormley.

The second survey is endorsed on the back, "No. 2., 1,113,600 acres," and the features of the document are identical with those of Survey No. 1. The map shows a somewhat triangular region bounded on the South by the Tennessee River for 30 miles, extending northward for about sixty miles, and with a northern side forty miles wide. The Sequatchey River and Little Chickamoga Creek run through it. This country is now embraced in Hamilton, Marion and Sequatchie Counties, north of Chattanooga. All signatures as in No. 1. The dates are Jan. 23rd to Jan. 29th, 1795.

The third survey (with all general features and signatures as before) is endorsed "No. 3., 585,000 acres," and shows a tract some 30 miles square, "on the road from Knoxville to Nashville," through which run Crab Orchard Creek and Amory's River. Dated Jan. 21st to Jan. 29th, 1795.

The fourth survey (in the usual manuscript sections) is endorsed "No. 4., 64,000 acres," and shows a district ten miles square, "on both sides of the main waggon road from Richmond to Knoxville, above Perkins's iron works." Dated Jan. 24th to Jan. 29th, 1795.

The fifth survey (having all customary features) is endorsed "No. 5., 6400 acres," and shows a long, narrow tract "situate in the County of

Knox, on the waters of Roseberry's Creek, which empties into Holston on the north side." Through it flow Wood's Creek, Roseberry's Creek, and Chapman's Branch. Dated Jan. 27th to Jan. 29th, 1795.

The sixth and final survey (identical in general make-up with the others) is endorsed "Hugh Dunlap's Discovery. No. 6," and shows a tract of 566,000 acres "situate on the road from Knoxville to Nashville, on White's Creek." Its sides are 30 miles in length, and through it run the main big fork of White's Creek, and other streams, and at one of its corners is the "Main Camping Place" on the road from Knoxville to Nashville. Also written on the survey, in Swagerty's hand, is the inscription "Jarrot's Choice." Dated Jan. 21st to Jan. 29th, 1795.

All the surveys are on early American watermarked paper. The manuscripts are mounted on gauze silk, and contained in a portfolio. All are in good condition, the few slight stains and traces of former foldings being unimportant. Together these documents constitute an extraordinary and perhaps unique record of the opening of the Early West to white settlement.

Neither the Library of Knoxville, the Tennessee State Library, nor the Library of the University of Tennessee, has any similar surveys or knows of any, or is able to supply any information regarding either Swagerty, or the Judges who attested his work. So far as can be discovered, these are the earliest original surveys of the region now known to be in existence.

THE ORIGINAL MANUSCRIPT SURVEYS OF WASHINGTON'S DISMAL SWAMP ENTERPRISE

641. VIRGINIA. The Original Surveys and Descriptions of Washington's Real Estate Adventure in Great Dismal Swamp Lands, as drawn and prepared by Gershom Nimmo, the Surveyor. Occupying eight pages of surveys, descriptions, and drawings, on five folio sheets. Inlaid, and contained in a portfolio.

(Dated) Norfolk, 1763

Sheet 1, p. 1, bears the inscription: "To Coll. Fieldg. Lewis," and is endorsed: "Entries made in the Great Dismal Swamp. 1763."

Sheet 1, p. 2, is a "Memo. of Entries made in the Great Dismal, viz."—then follows a list of ten land entries made in the Swamp, between Sept. 29, 1760, and Oct. 20, 1763, by John Mereer, Jr.; Chas. Wilkins; Thos. Wright; Col. Robert Tucker, and others. Following these records is a statement beginning "Sir," and stating that the above lands (aggregating 5800 acres) have not yet been surveyed. All signed "Yr Huml. Servt, Gershom Nimmo" (and dated) "Norfolk, Nov. 20th, 1763."

Sheet 2, p. 1, is headed "Coll. Washington & Company," and is a detailed surveyor's description of the property. It commences: "Beginning at a point at the Mouth of the Poison Swamp, running thence," and then embraces about 110 closely written surveyor's entries, delimiting the boundaries, and filling the whole page.

Sheet 2, p. 2, contains a blank MS. legal document drawn up by Justice Henry Reddick, and has nothing to do with the land records. The sheet was convenient for the surveyor, and he used the other side of it.

Sheet 3, p. 1, is headed: "A Survey made for the Dismal Swamp Compy. in the Great Dismal Swamp," etc. In 23 lines of narrative MS. it gives numerous details regarding boundaries; the lands of Mills Reddick; of Col. Lemuel Reddick; of Robt. Tucker; the location of Carberry's Mill; the Patented Lands, the Company's Causeway and other allied information regarding a tract "containing 23,696 acres."

Sheet 3, p. 2, contains the MS. description of the boundaries of a tract of 10,449 acres "along the Carolina line," and "along the said Causeway." It is accompanied by a quill-pen drawing showing the tract, Dismal Town, the Dismal Pond, and the Causeway.

Sheet 4, p. 1, is endorsed: "Part of Survey of D. Swamp."

Sheet 4, p. 2, is occupied by a quill-pen drawing showing "Dismal Town," the Causeway for 6 miles; "Dismal Pond," the "Landing" at the Pond, and a Compass. The size of the Pond is given as "2 miles by 1½."

Sheet 5, p. 1, is endorsed: "Survey of the Dismal Swamp."

Sheet 5 (larger than the rest), p. 2, is occupied by a quill-pen surveyor's drawing of the boundaries of the Company's tract, and locating "Rothery's Mill"; "Col. Tucker's Mill"; "Cooper's Mill"; "Col. L. Reddick's Mill"; "Dismal Town"; "Lake"; and "Causeway to Lake."

Altogether an extremely important, interesting and definite record dealing with Washington's pioneer land enterprises, which continued until the organization of the North West Territory, and relating to which very little original material has ever appeared.
